

EAGE

EUROPEAN
ASSOCIATION OF
GEOSCIENTISTS &
ENGINEERS

The **European Association of Geoscientists & Engineers** is a leading international association for geoscientists and engineers providing a global network of professionals for all its members. Although European based, EAGE's membership can be found all over the world (over 10,000 members in more than 100 countries).

Our Mission

- to promote the development and application of geosciences and related engineering subjects;
- to promote innovation and technical progress;
- to foster the communication, fellowship and cooperation between those working in, studying or otherwise being interested in these fields.

Our Members

Members of EAGE are either studying or professionally involved in geophysics, petroleum exploration, geology, reservoir engineering, mining and civil engineering. By including several disciplines of geoscience, EAGE is able to create a truly integrated platform for its members.

Through EAGE members do not only meet and discuss with their colleagues of the same discipline, but also with professionals of other disciplines reflecting the everyday working practice in many companies that apply multi-disciplined project teams.

At the moment, EAGE operates two divisions: 1) Oil & Gas Geoscience Division; 2) Near Surface Geoscience Division.

Our Activities

The main activities that EAGE organizes for its members are:

- 1) conferences & exhibitions;
- 2) workshops & fieldtrips;
- 3) educational programmes (Short Courses, Education Days, etc.);
- 4) publications (monthly magazine, scientific journals, bookshop, online paper library).

The regions where EAGE is currently organizing its events include Europe, Middle East, CIS and North-Africa. EAGE is officially supporting events all over the world.

Offices

EAGE's main office is in the Netherlands with regional offices in Russia (Moscow) and the Middle East (Dubai).
