

Conference Programme Schedule

Date	Time	World Ballroom B	Lotus Suites 1&2	Lotus Suites 3&4	Lotus Suites 5&6	Lotus Suite 7	Lotus Suite 9	Lotus Suite 10	Lotus Suite 11	Lotus Suite 12	Pre-Function Area	
Tuesday, 7 February 2012	0800-1015 hours	Opening Ceremony - World Ballroom										Poster Displays
	1015-1115 hours	Opening of Exhibition / VIP Tour / - Exhibit Halls (Convention Centre)										
	1015-1045 hours	Coffee Break - Foyer of Convention Centre										
	1045-1215 hours		Technical Session 1 Chemical Methods	Technical Session 2 Downhole Tubulars	Technical Session 3 Advances in Seismic Acquisition and Processing	Technical Session 4 Unconventional: Performance Evaluation and Improvement	Technical Session 5 Integrated Reservoir Studies	Technical Session 6 Well Control	Technical Session 7 Challenges – Understanding the Reservoir	Technical Session 8 Intelligent Fields		
	1215-1400 hours	Luncheon/Ice Cream Social										
	1400-1600 hours	Executive Plenary Session: Technology and Operational Excellence: Keys to Sustainable Global Energy - World Ballroom A, B & C										
	1730-2130 hours	Conference Dinner and Award Presentation - Siam Niramit										
Wednesday, 8 February 2012	0830-1000 hours	Panel Session 1 Unlocking Unconventional Resources – Keys to Success: Technology, Costs, Opportunity, Global Adoption	Technical Session 9 Development Planning to Optimise Recovery	Technical Session 10 Emerging Technologies	Technical Session 11 Advances in Seismic Imaging and Full Waveform Inversion	Technical Session 12 Expandables and Casing	Technical Session 13 Future of Exploration	Technical Session 14 Innovative Completion Systems	Technical Session 15 Asset Integrity			
	1000-1030 hours	Coffee Break - Exhibit Halls (Convention Centre)										
	1030-1200 hours		Technical Session 16 Integrated Project Management	Technical Session 17 Well Test Interpretation and Reservoir Monitoring	Technical Session 18 Basin Analysis and Petroleum Systems	Technical Session 19 Unconventional: Understanding the Reservoir	Technical Session 20 LNG Prospects and Technologies	Technical Session 21 Well Testing and Perforating	Technical Session 22 Geomechanics Application in E&P – Reservoir Applications	Technical Session 23 Environmental Remediation & Social Responsibility		
	1200-1400 hours	Topical Luncheon - World Ballroom										
	1400-1530 hours		Technical Session 24 Reservoir Surveillance 1	Technical Session 25 Application of Seismic Technology in Reservoir	Technical Session 26 Basin Evolution and Analysis	Technical Session 27 Unconventional: Over-Arching Themes	Technical Session 28 Future Gas Commercialisation Technologies	Technical Session 29 Drilling Fluids and Cementing	Technical Session 30 Geomechanics Application in E&P – Well Applications	Technical Session 31 Human Resources – Employee Development and Sustainability		
	1530-1600 hours	Tea Break/Ice Cream Social - Exhibit Halls (Convention Centre)										
	1600-1730 hours	Panel Session 2 Technology Development and Innovation	Technical Session 32 Reservoir Surveillance 2	Technical Session 33 Thermal/Heavy Oil Recovery	Technical Session 34 Regional Case Histories in Geophysics	Technical Session 35 Unconventional: Case Studies	Technical Session 36 Putting Geology Back into Geologic Modeling	Technical Session 37 Stimulation and Sand Control	Technical Session 38 Well Intervention Challenges	Technical Session 39 Improving HSE Through Process Improvement		
1730-1900 hours	Poster Session Presentation and Reception - Pre-Function Area of Convention Centre											
Thursday, 9 February 2012	0830-1000 hours	Panel Session 3 Operational Excellence: People, Processes and Technology	Technical Session 40 Gas Injection	Technical Session 41 Performance Management	Technical Session 42 Carbonates - Heterogeneity and Reservoir Characterisation	Technical Session 43 Unconventional: Gas Hydrate	Technical Session 44 Quantitative Geophysics for Reservoir Characterisation	Technical Session 45 Bottom Hole Assembly	Technical Session 46 Facilities & Integrity Challenges			
	1000-1030 hours	Coffee Break - Exhibit Halls (Convention Centre)										
	1030-1200 hours		Technical Session 47 EOR Mechanism	Technical Session 48 Reservoir Case Studies	Technical Session 49 Carbonates - Depositional Concepts and Seismic Response	Technical Session 50 Well Planning	Technical Session 51 Improvements in Gas Transportation	Technical Session 52 Drilling and Completions - Case Studies	Technical Session 53 Development Optimisation Challenges	Technical Session 54 Improving Operational HSE Performance		
	1200-1330 hours	Luncheon										
	1330-1500 hours	Panel Session 4 Deep Water Challenges – GOM's Long Term Impact and How Should the Industry Move Forward	Technical Session 55 EOR Monitoring	Technical Session 56 Technology Advancement	Technical Session 57 Seismic Characterisation of Fractured Reservoirs	Technical Session 58 CO ₂ Sequestration	Technical Session 59 Advances in Siliciclastics	Technical Session 60 Extreme Environments (HPHT and Deepwater)	Technical Session 61 Understanding the Reserves			
1515-1600 hours	Closing Session - World Ballroom B											

- Plenary / Panel Session
- Exploration Session
- Reservoir Session
- Drilling & Completions Session
- Development & Production Session
- Unconventional Oil & Gas Session
- Mid-Stream Gas Session
- Over-Arching Industry Issues Session
- Integrated Project Management Session
